

Newsletter

At Cheadle Hulme Primary School we have four 'Curriculum Drivers': Respect, Collaboration, Possibilities and Technology. **Respect** is an integral part of all that we do at school and we believe it is important for all children to appreciate others, value diversity and to understand themselves as individuals. These principles are further reinforced through the work we are doing as a Rights Respecting school, along with our three school rules:

We are respectful

Everybody is valued and respected

We do our best

Everybody takes pride in all that they do

We make good choices

Everybody reflects on their behaviour and learns to make good choices

We are very fortunate that all children and adults at our school recognise the importance of the above and work hard to build on their understanding of respect. It is integral to our school ethos of 'preparing children for the world we know and a world yet to be discovered.'

Mrs Drake

Deputy Head of School

Year 1 Spellings

The spelling list for this half term has been attached to your child's reading diary, along with details on how and when these will be tested. Please look out for these from today and let a member of the Y1 team know if you have any further questions.

Bike Rack

From this week, our bike rack has been relocated to the area alongside our MUGA on the way in/out of the school playground. We hope that this will further support the measures that are in place to allow individuals to practise social distancing. Should you require access after school during KidsClub hours, please contact Jodie Hepworth by email at kidsclub@cheadlehulmeprimary.org.uk

Home Learning

To reduce the number of items moving between school and home, Home Learning will now be shared with your child's Class Teacher on Microsoft Teams rather than in a physical book. Each year group has received their Home Learning grid electronically (this is also available in the Files section of MS Teams) and the weekly task your child completes can be uploaded on Wednesdays as a photograph using the 'Assignments' feature. A user guide for how to do this has been sent with this week's Newsletter.
